PREFACE

The **Connecticut Department of Labor's Office of Research** is the state's leading producer of information and statistics on the economy, workforce, occupations, and careers. Our mission is to produce, analyze, and deliver timely and reliable workforce information and statistics to assist in decision-making for those planning economic development initiatives, for education and training providers, and for job seekers and students who are seeking guidance in making career choices.

In support of these efforts, the Office of Research is pleased to provide the **2015 Information for Workforce Investment Planning**. This publication contains a variety of data on Connecticut and each of the state's five Workforce Development Areas including population and population density, labor force, employment and wages by industry sector, and new housing permits. In addition, detailed information on residents in need of workforce investment services such as high school dropouts, Medicaid recipients, adult probationers, Temporary Family Assistance (TFA) recipients, and other residents with barriers to employment is included.

The **2015 Information for Workforce Investment Planning** also includes appendix tables and historical data on the aforementioned topics for comparisons and trends analysis.

Data sources are cited on each appendix table, which includes other State agencies, the Connecticut Department of Labor and the U.S. Census Bureau. We wish to thank all of the data providers for their contribution to this year's publication. The charts and tables in the **2015 Information for Workforce Investment Planning** are within the public domain, and may be copied and/or quoted. However, we do request that you attribute such material to this publication.

We hope that you find the **2015 Information for Workforce Investment Planning** an effective data source for your planning needs.

Additional data on the North Central WDA are available at: http://www1.ctdol.state.ct.us/lmi/wia_northcentral.asp.

ACKNOWLEDGMENTS

Director: Andrew Condon

Managing Editor: Matthew Krzyzek, Economist

We would like to thank the following Department of Labor and Office of Research staff who provided data and editorial assistance for this publication: Diana Arbelaez, Todd Bentsen, Patrick Flaherty, Jungmin Joo, Jonathan Kuchta, Doreen LeBel, Dana Placzek, and Michael Polzella.

Connecticut

- In 2014, Connecticut issued 5,329 new housing permits; a decrease of 95 from 2013.
- Permits are up 68% from a 2011 low, but still down 55% from a 2005 high.
- The Eastern WDA had the largest increase since 2013, up 292. The Southwest WDA had the largest decrease, down 620.

South Central WDA

- The South Central WDA issued 1,067 new housing permits in 2014, 273 more than in 2013.
- New Haven (412), Milford (217) and Middletown (61) reported the highest number of permits.
- New Haven (+373) had the largest area increase.
- Branford (-135) had the largest area decrease.

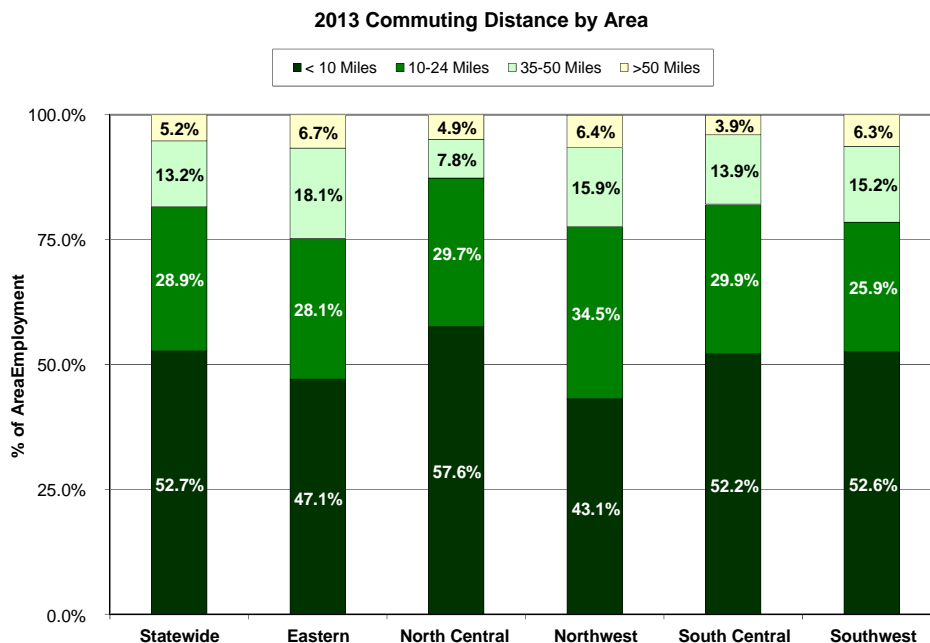

In 2014, 20% of Connecticut's total new housing permits were issued in the South Central area

See Also Appendix Table on Page 23

Connecticut

- The percent of Connecticut employment that also live in Connecticut has decreased slightly from 93.3 percent in 2003 to 91.9 percent in 2013.
- This resident employment decrease is coupled with more non-Connecticut residents commuting into the state for work, rising from 6.7 percent of state employment in 2003 to 8.1 percent of Connecticut employment in 2013.

- More Connecticut residents are also working out of state, 7.2 percent of employed residents in 2013, up from 4.9 percent in 2003.

	Labor Inflow / Outflow					
	Inflow*			Outflow**		
	2013	2003	Change 2003-13	2013	2003	Change 2003-13

Connecticut

- The number of Temporary Family Assistance (TFA) recipients in Connecticut decreased by 1,809 recipients from a year before to 34,458 in 2015.
- All five WDAs experienced TFA recipient declines from 2014 to 2015, ranging from -3.2 (North Central) to -9.9 percent (Eastern).

South Central WDA

- Twenty-three percent of Connecticut's total TFA population lived in the South Central WDA (7,988 recipients) in 2015, among which 77 percent lived in New Haven, Meriden, or West Haven.

From 2014 to 2015, the largest South Central town decrease occurred in New Haven, down 139 Recipients.

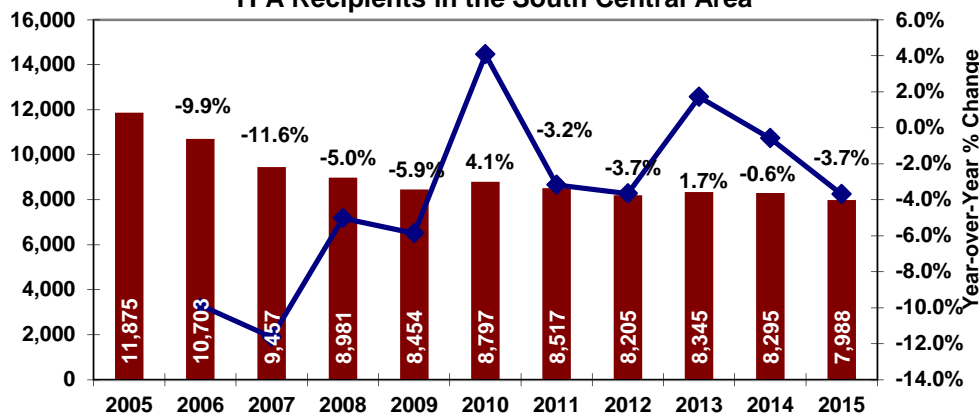

TFA Recipients in Connecticut

2015 Connecticut TFA Recipients by Area

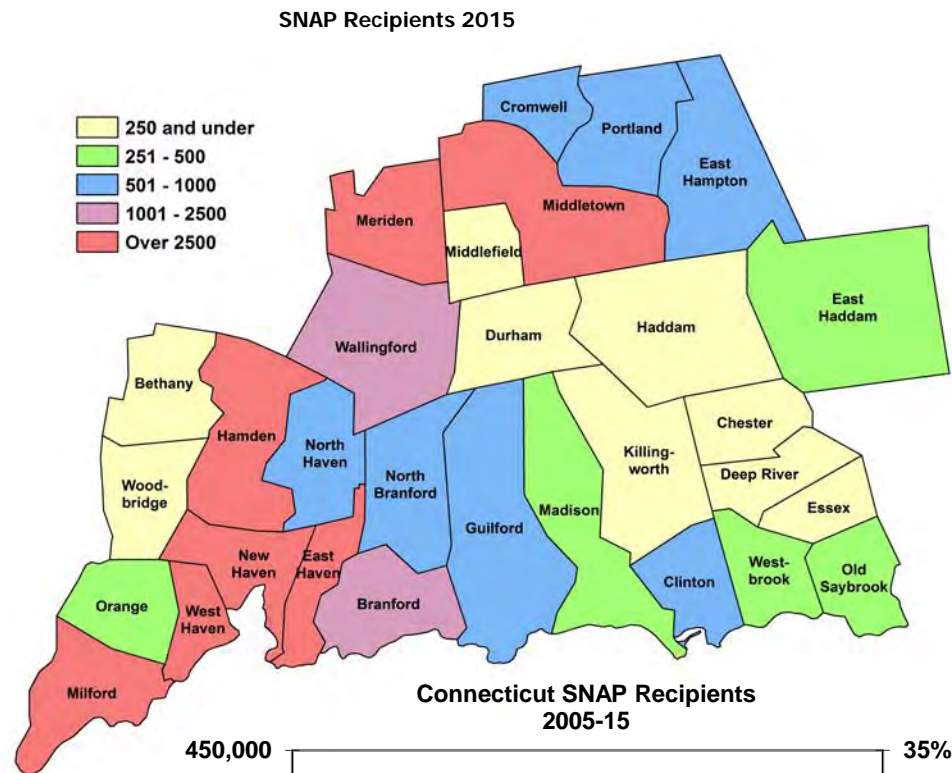

TFA Recipients in the South Central Area

See Also Appendix Table on Page 24

Connecticut

- From 2014 to 2015, the total number of Supplemental Nutrition Assistance Program (SNAP) recipients in Connecticut increased 2.1 percent, up 8392 to 412,819 recipients.
- The Eastern WDA had a slight SNAP recipient decrease, the other four WDAs had increases between 2.3 and 2.7 percent.

South Central WDA

- South Central WDA SNAP recipients increased 2.7 percent from 2014 to 2015. Recipients are up 7.2 percent since 2013.
- Twenty two percent of Connecticut's total FS population resided in the South Central WDA (88,852 recipients) in 2015, among 67.9 percent lived in New Haven, Meriden and West Haven.
- The largest WDA SNAP recipient increases occurred in New Haven (+1,147), Meriden (+244), and West Haven (+163).
- The largest WDA SNAP recipient decreases occurred in Old Saybrook (-24), Chester (-17), and Haddam (-17).

South Central Area SNAP Recipients 2005-15

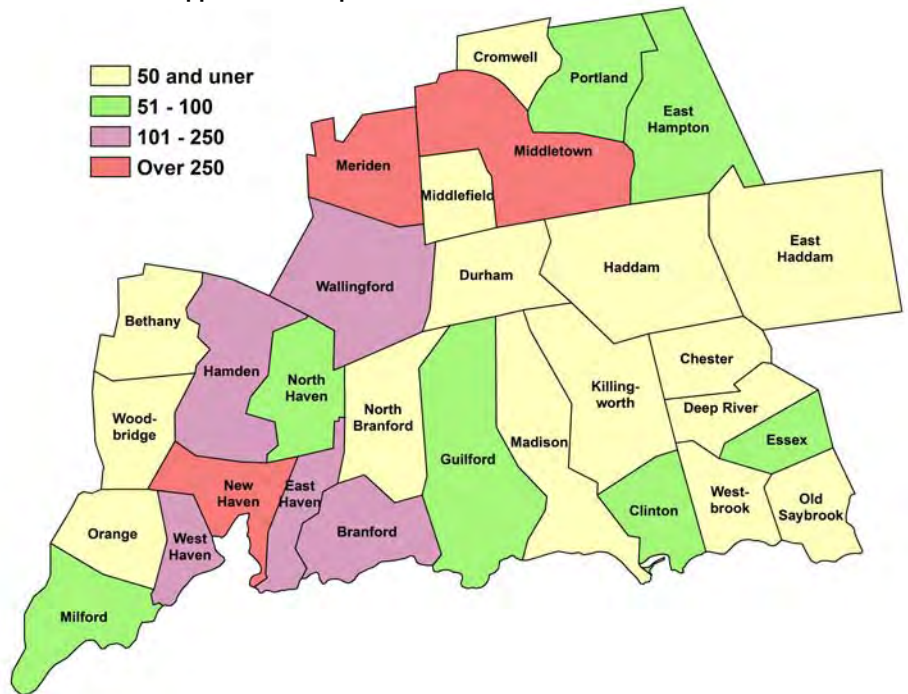

See Also Appendix Table on Page 24

Connecticut

- From 2014 to 2015, the total number of State Supplement recipients (SSR) in Connecticut increased slightly from 15,367 to 15,461 recipients.
- The North Central WDA had the largest SSR population and the Eastern WDA had the smallest.

State Supplement Recipients 2015

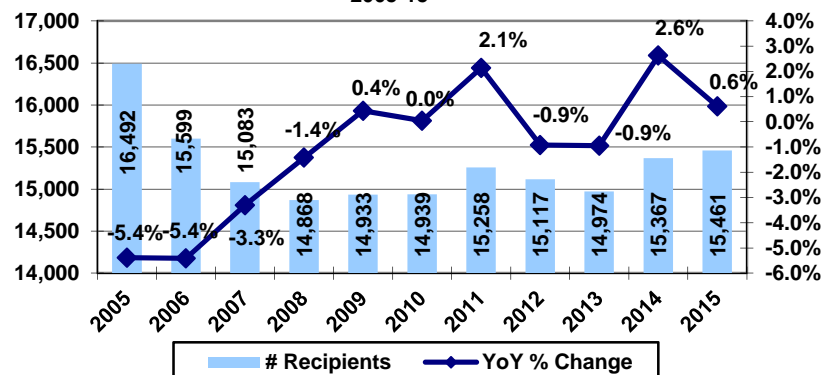

South Central WDA

- The South Central WDA experienced an increase of 20 (+0.6%) recipients from 2014-15.
- Twenty-three percent of Connecticut's total SSR population resided in the South Central WDA (3,611 recipients) in 2015, among which fifty-five percent resided in New Haven, Meriden, and Middletown.
- New Haven, Cromwell, and East Hampton had the largest South Central WDA increases from 2014-15.
- Wallingford, Meriden, and West Haven had the largest South Central WDA decreases from 2014-15.

In 2015, 23% of Connecticut's SSR population lived in the South Central Area

State Supplement Recipients in Connecticut 2005-15

See Also Appendix Table on Page 25

Connecticut

- Connecticut's Medicaid population increased by 45,306 to 823,867 from 2014 to 2015.
- Statewide Medicaid for Lowest Income Populations (LIP) decreased by 43,515 to 46,097 from 2014 to 2015.

South Central WDA

- Twenty-one percent of the state's total Medicaid population resided in the South Central WDA (170,908 recipients) in 2015.
- South Central Medicaid recipients grew by 8,355 recipients from 2014 to 2015.
- Fifty-six percent of South Central Medicaid recipients lived in New Haven, Meriden, and West Haven in 2015.
- The South Central WDA had 10,521 LIP recipients in 2015, down 9,941 from a year before.
- Sixty-one percent of LIP recipients lived in New Haven, Meriden, or West Haven in 2015.

Note: From SFY2014 onward, total Medicaid figures include Medicaid Lowest Income Populations (LIP), which replaced the LIA program.

Medicaid Recipients 2015

Medicaid Recipients in Connecticut

Medicaid Recipients - By Area

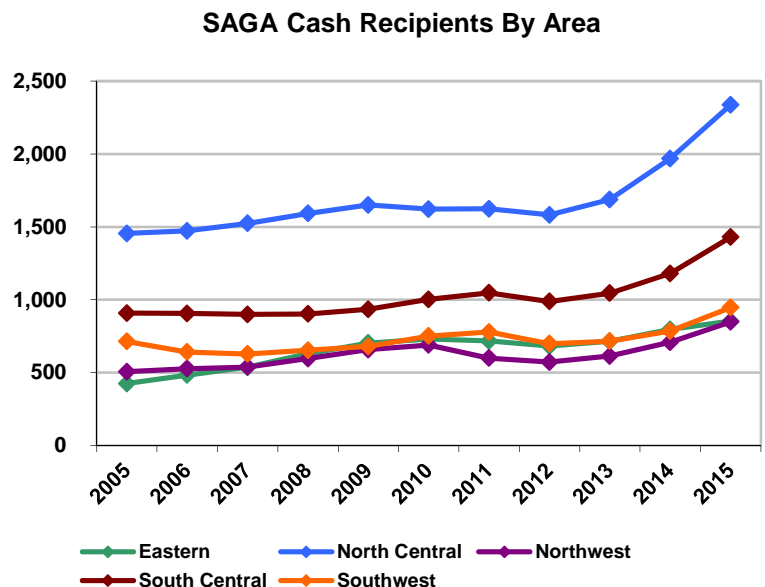

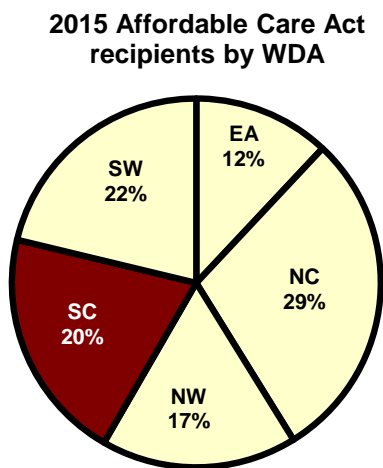

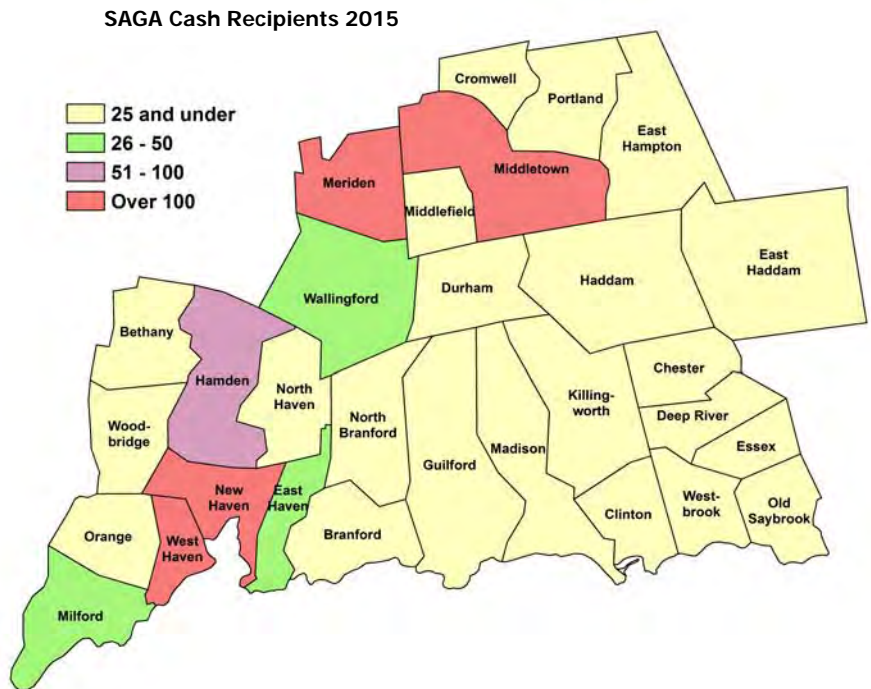

See Also Appendix Table on Page 25

Connecticut

- State Administered General Assistance (SAGA) Cash recipients increased by 975 recipients to 6,478 from 2014 to 2015.
- Affordable Care Act recipients amounted to 338,696 statewide in 2015.

South Central WDA

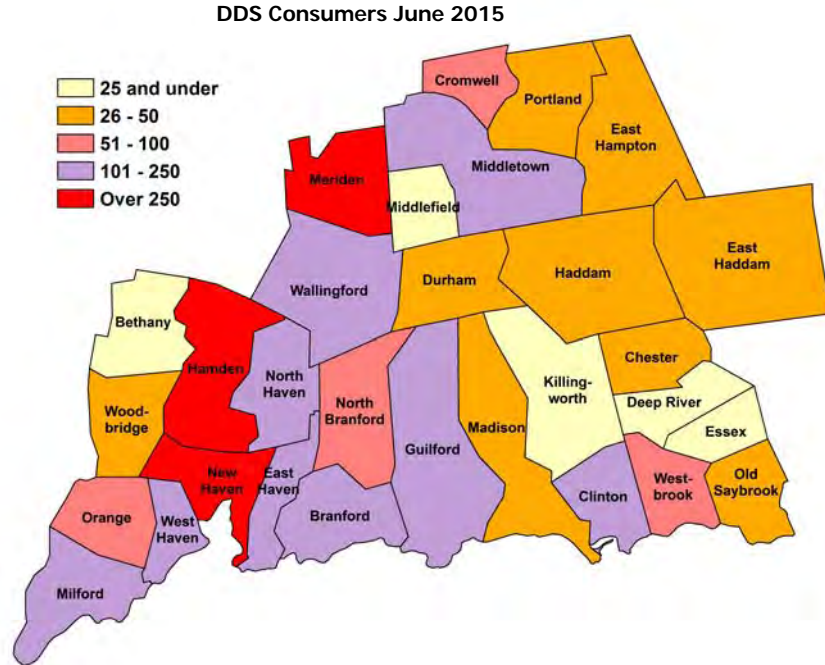

- South Central WDA SAGA cash recipients increased by 249 recipients to 1,429 from 2014.
- Seventy percent of South Central SAGA recipients lived in New Haven, Meriden, and Middletown in 2015.
- Twenty percent (69,102 recipients) of statewide ACA recipients live in the South Central WDA, among which 55 percent live in New Haven, Meriden, and West Haven.

See Also Appendix Table on Page 26

Connecticut

- As of June 2015, there were 16,223 active Department of Developmental Services (DDS) consumers in Connecticut, a decrease of 100 since 2014 and an increase of 1,280 since 2005.
- The number of consumers has increased by 8.6% since 2005.

South Central WDA

- The South Central WDA had 3,513 consumers in June 2015, an decrease of 28 since 2014.
- New Haven (653) and Meriden (369) had the largest DDS consumer population in the area.
- Hamden (+9) had the largest over-the-year increase in DDS consumers.
- Guilford (-9) had the largest over-the-year decrease in DDS consumers.

Department of Developmental Services (DDS) Consumers by Area

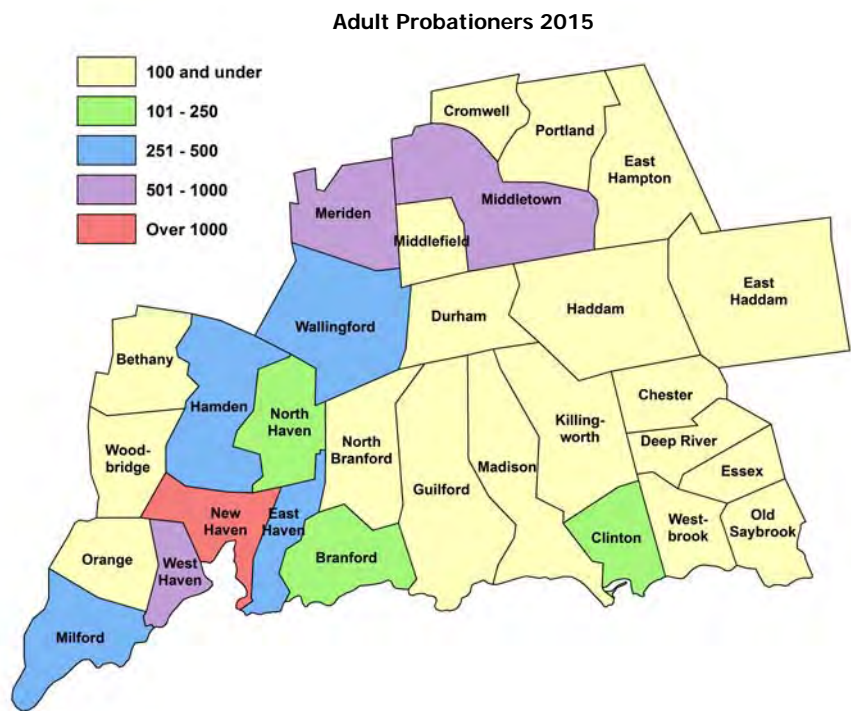

In 2015, 22% of Connecticut's DDS Consumer Population Lived in the South Central WDA

See Also Appendix Table on Page 27

Connecticut

- In 2015, there were 42,744 adult probationers in Connecticut, a decrease of 397 from 2014.
- The South Central WDA had the largest probationer decrease, the largest increase was in the Northwest WDA.

South Central WDA

- The South Central WDA had 8,574 adult probationers in 2015, down 333 from 2014.
- New Haven (3,600), Meriden (936) and West Haven (752) accounted for 62% of area probationers.
- Cromwell (+12) had the highest over-the-year adult probationer increase.
- New Haven (-94) had the highest over-the-year adult probationer decrease.

Adult Probationers in Connecticut by Area

As of November 2015, 22% of Connecticut's total number of adult probationers resided in the South Central area

Industry Employment Concentration

South Central WDA relative to Connecticut and the U.S.

These figures reflect the importance of various industries to the economy of an area, in terms of the number of jobs they provide, compared with their significance to the State and Nation. Specifically, they measure the concentration of an industry's employment in a local area relative to the larger areas. A ratio above 1.0 indicates that an industry may be more important to the area than to the State or Nation as a whole. For example, if an industry provides 3.0 percent of local area jobs and 1.5 percent of State jobs, its local employment concentration ratio would be 2.0, revealing twice the concentration of jobs in that industry in the local area than exists in the State overall. This may uncover smaller industries that make relatively significant contributions to the local economy, representing both a source of economic strength to the area and a potential vulnerability if an economic turn affects those industries. In the South Central WDA, the concentration of employment in the educational services industry is over two times its share of employment statewide and nationwide.

* Total Medicaid Includes State Supplement, Medicaid for Lowest Income Populations, and Medicaid Only, Excludes QMB/SLM

Source: Connecticut Department of Social Services

* Total Medicaid Includes State Supplement, Medicaid for Lowest Income Populations, and Medicaid Only, Excludes QMB/SLM

* Due to rounding some towns may not display a case but will display recipients. This is due to most cases having more than one recipient and Note:

Due to rounding, program and statewide totals may appear inaccurate.

__As of SFY2012, SAGA Medical was replaced by the Medicaid Low Income Adults program and included in the Total Medicaid counts; for comparison to data from previous fiscal years, it is shown separately as well.

__As of SFY2013, Medicaid Tuberculosis and Family Planning programs are included in the Total Medicaid counts.

__As of SFY2014, Affordable Care Act and Medicare Savings Program (i.e., Qualified Medicare Beneficiary and Special Low Income/Additional Low Income Medicare Beneficiary) data are included in the Total Medicaid counts. The ACA and MSP data represent estimated averages for the last six-month period of the fiscal year and estimated averages of unduplicated cases/recipients for the entire fiscal year, respectively.

__As of SFY2015, Affordable Care Act data represent actual, not estimated, averages for the entire fiscal year. Medicare Savings Program (i.e., Qualified Medicare Beneficiary and Special Low Income/Additional Low Income Medicare Beneficiary) data continue to represent estimated averages of unduplicated cases/recipients for the entire fiscal year.

__Total Medicaid currently includes State Supplement; Medicaid Family, ABD, Long Term Care (LTC), Tuberculosis, Family Planning; Medicare Savings Program; Medicaid for Lowest Income Populations (formerly LIA); and Affordable Care Act.

*Excludes government

Size class is determined by the number of employees at a worksite.

NOTE: The sum of the areas is less than the statewide total because some firms only report statewide employment and are not included in the area data.

- Nearly half (49%) of Connecticut's jobs are concentrated in five major occupational categories: Office and Administrative Support, Sales and Related, Food Preparation and Serving-Related, Education, Training, and Library, and Management. Among these five categories, workers in the Management occupation earned the highest wages.
- Workers in 12 of Connecticut's 22 major occupational categories earn an annual average wage of at least \$50K/year.
- Entry level wages of below \$10/hour are predominate in five of the 22 occupational categories: Farming, Fishing, and Forestry, Food Preparation and Serving-Related, Personal Care and Service, Sales and Related, and Building/Grounds Cleaning and Maintenance.
- Entry level wages of more than \$20/hour are predominate in seven of the 22 occupational categories: Life, Physical, and Social Science, Healthcare Practitioners and Technical, Business and Financial Operations, Legal, Computer and Mathematical, Architecture and Engineering, and Management.

Per Capita Income: U.S. Bureau of Economic Analysis

Median Family and Household Income: U.S. Census Bureau, 2014 ACS

Per capita personal income

This measure of income is calculated as the total personal income of the residents of an area divided by the population of the area. Per capita personal income is often used as an indicator of consumers' purchasing power and of the economic well-being of the residents of an area.

- The Population of Connecticut in 2014 was 3,596,699.
- This PCPI ranked 1st in the U.S. and was 141 percent of the national average of \$46,049. The 2014 PCPI reflected a 4.4 percent increase from 2013. The 2013-2014 national increase was 3.6 percent.
- In 2004 the PCPI of Connecticut was \$47,105 and ranked 1st in the United States. The 2004-2014 average annual growth rate of Connecticut PCPI was 3.8 percent. The average annual growth rate for the nation overall was 3.4 percent.

Family household (Family)

A family includes a householder and one or more people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder's family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may comprise a group of unrelated people or one person living alone.

Household

A household includes all the people who occupy a housing unit as their usual place of residence.

Base Period: A selected period of time, frequently one year, against which changes to other points in time are calculated (*also see Index Number*).

Benchmarking: The process of re-estimating statistics as more complete data become available. Estimates are usually calculated using only a sample of the universe (total count). Therefore, benchmarking allows for correction of estimating errors. New benchmarking levels are introduced on an annual basis.

Covered Employment: Employment in any industry insured under the provisions of the Connecticut Unemployment Compensation Law.

Current Population Survey: A national household survey conducted each month by the Census Bureau for the U.S. Bureau of Labor Statistics. Information is gathered from a sample of about 60,000 households (1,200 in Connecticut) designed to represent the civilian non-institutional population of persons 16 years of age and over.

Discouraged Workers: Persons not included in the unemployment count who say they did not look for work because they think none is available, or they believe they lack the skills necessary to compete in the labor market.

Dislocated Worker: As defined under the Workforce Investment Act of 1998, an individual who: 1. (a) has been terminated or laid off, or received notice of same; (b) is eligible for or has exhausted entitlement to unemployment compensation, or has demonstrated attachment to the workforce but is not eligible for unemployment compensation; and (c) is unlikely to return to a previous industry or occupation. 2. (a) has been terminated or laid off, or has received notice of same, as a result of permanent closure or substantial layoff at a plant, facility or enterprise; or (b) is employed at a facility at which employer has made a general announcement that such facility will close within 180 days; (c) for purposes of receiving certain services, is employed at a facility at which the employer has made a general announcement that such facility will close; (d) was self-employed but is unemployed as a result of general economic conditions in the community in which the individual resides or because of natural disasters; (e) is a displaced homemaker.

Displaced Homemaker: An individual who has been providing unpaid services to family members in the home and who: (a) has been dependent on the income of another family member but is no longer supported by that income; and (b) is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Durable Goods: Items with a normal life expectancy of three years or more. Automobiles, furniture, household appliances, and mobile homes are examples. Because of their nature, expenditures for durable goods are generally postponable. Thus, durable goods sales are the most volatile component of consumer expenditures.

Employed Persons: Those individuals who are 16 years of age and over who worked for pay any time during the week which includes the 12th day of the month, or who worked unpaid for 15 hours or more in a family-owned business, and individuals who were temporarily absent from their jobs due to illness, bad weather, vacation, labor dispute, or personal reasons. Excluded are persons whose only activity consists of work around the house and volunteer work for religious, charitable, and similar organizations.

Employment Concentration: Industry Employment Concentration, or Location Quotient reflects the importance of an industry to the economy of a geographical area, in terms of the number of jobs it provides. It is a calculated ratio that determines whether or not the local economy has a greater share of that industry than expected. This publication uses Location Quotients to compare workforce development area employment by industry relative to Connecticut. A Location Quotient of greater than 1.0 indicates a higher level of employment concentration in an area, while a Location Quotient of 2.0 shows that an industry has twice the employment concentration in that area relative to Connecticut as a whole.

Establishment: An economic unit such as a farm, mine, factory, or store, which produces goods or provides services. It is usually at a single physical location and engaged in one predominant type of economic activity.

Family: A group of two or more people who reside together and who are related by birth, marriage, or adoption.

Farm Employment: Persons who work as owners and operators of farms, as unpaid family workers on farms, or as hired workers who are engaged in farm activities.

Full-Time Employment: Employment of 35 or more hours per week.

Household: A household includes all the people who occupy a housing unit as their usual place of residence.

Housing Permits: Counted by the Bureau of the Census, new housing permits include permits issued for all new privately owned, attached and detached single-family houses.

Index Number: A measure of the relative changes occurring in a series of values compared with a base period. The base period usually equals 100, and any changes from it represent percentages. By use of an index number, large or unwieldy data, such as sales in thousands of dollars or costs in dollars and cents, are reduced to a form in which they can be readily understood.

Industry: A generic term for a distinct group of economic activities. Industries are described and classified by their primary activity or product.

Initial Claim: A notice filed by a worker, at the beginning of a period of unemployment, requesting a determination of insured status for jobless benefits.

Labor Force: All persons 16 years of age and over who are classified as employed, unemployed and seeking employment, or involved in a labor-management dispute. The labor force does not include persons who never worked a full-time job lasting two weeks or longer and “discouraged workers” who have been unemployed for a substantial length of time and are no longer actively seeking employment. Members of the armed forces stationed either in the United States or abroad are counted by their place of residence. The civilian labor force excludes members of the armed forces and the institutionalized population.

Labor Force Participation Rate: The proportion of the total civilian non-institutional population or of a demographic subgroup of that population classified as “in the labor force.”

Labor Market Area (LMA): As defined by the U.S. Bureau of Labor Statistics, an economically integrated geographic area within which individuals can reside and find employment within a reasonable distance or can readily change employment without changing their place of residence.

Labor Market Information (LMI): The body of information that deals with the functioning of labor markets and the determination of the demand for and supply of labor. It includes, but is not limited to, such key factors as changes in the level and/or composition of economic activity, the population, employment and unemployment, income and earnings, wage rates, and fringe benefits.

Labor Surplus Area: A civil jurisdiction where the average unemployment rate is at least 20 percent above the average unemployment for all states, or its unemployment during the previous two calendar years was ten percent or more. The designation allows establishments in the area preference in bidding for certain federal contracts.

Location Quotients: Measures an industry’s concentration or specialization in one geographical area relative to a larger area (also see *Employment Concentration*).

Manufacturing: Includes establishments engaged in the mechanical or chemical transformation of materials or substances into new products. These establishments are usually described as plants, factories, or mills and characteristically use power-driven machines and materials handling equipment. The new product of a manufacturing establishment may be “finished” in the sense that it is ready for utilization and consumption, or it may be “semi-finished” to become a raw material for an establishment engaged in further manufacturing.

Median: The middle value or midpoint between two middle values in a set of data arranged in order of increasing or decreasing magnitude. As such, one-half of the items in the set are less than the median and one-half are greater.

Median Income: The median divides the income distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median. For households and families, the median income is based on the distribution of the total number of households and families, including those with no income.

Metropolitan Statistical Area (MSA): The general concept of a Metropolitan Statistical Area is one of a large population nucleus, together with adjacent communities which have a high degree of economic and social integration with that nucleus. Connecticut currently has seven Metropolitan Statistical Areas, as defined by the federal Office of Management and Budget.

Money Income: Census-based money income is derived from a sample of individuals 15 years of age and older, and consists only of income that is received by individuals in cash and its equivalents.

Nondurable Goods: Items that generally last for only a short period of time (three years or less). Food, beverages, apparel, and gasoline are common examples. Because of their nature, nondurable goods are generally purchased when needed.

Nonfarm Employment: The total number of persons on establishment payroll employed full- or part-time who received pay for any part of the pay-period which includes the 12th day of the month. Temporary and intermittent employees are included, as are any workers who are on paid sick leave, on paid holiday, or who work during only part of the specified pay period. A striking worker who only works a small portion of the survey period, and is paid, is included. Persons on the payroll of more than one establishment are counted in each establishment. Data exclude proprietors, self-employed, unpaid family or volunteer workers, farm workers, and domestic workers. Persons on layoff the entire pay-period, on leave without pay, on strike for the entire period or who have not yet reported for work are not counted as employed.

Occupation: A name or title of a job that identifies a set of activities or tasks that employees are paid to perform. Employees that perform essentially the same tasks are in the same occupation, whether or not they are in the same industry. Some occupations are concentrated in a few particular industries, other occupations are found in the majority of industries.

Part-Time Employment: As defined by the U.S. Bureau of Labor Statistics, employment in which a worker is regularly scheduled to work fewer than 35 hours a week.

Per Capita Personal Income: The annual total personal income of residents divided by resident population as of July 1st of current year.

Personal Income: Measures the net earnings, rental income, personal dividend income, personal interest income, and transfer payments by place of residence before the deduction

of personal income taxes and other personal taxes. Reported in current dollars.

Private Household Workers: Persons who work for profit or fees in private households such as child care workers, cooks, housekeepers or other household staff.

Production Worker: Employees, up through the level of working supervisor, who are directly engaged in the manufacture of the product of an establishment. Among those excluded from this category are persons in executive and managerial positions and persons engaged in activities such as accounting, sales, advertising, routine clerical work, and professional and technical functions.

SAGA (State-Administered General Assistance): Provides cash, medical, and emergency assistance to persons who do not qualify for federal and state assistance programs, such as Supplemental Security Income (SSI), Temporary Family Assistance (TFA), and Medicaid.

Seasonal Adjustments: The adjustment of time-series data to eliminate the effect of intra-year variations that tend to occur each year in approximately the same manner. Examples of such variations include school terms, holidays, and yearly weather patterns.

Seasonal Industry: An industry in which activity is affected by regularly recurring weather changes, holidays, vacations, etc. The construction and recreational industries are typically characterized as “seasonal.”

Self-Employed Workers: Persons who work for profit or fees in their own business, profession, trade, or farm. Self-employed persons whose businesses are incorporated are included among wage and salary workers, because technically, they are paid employees of a corporation.

Underemployed: Persons working full- or part-time in jobs that are below their earning capacity or level of competence. The terms “underemployed” and “underutilized” are used interchangeably. Underemployment has also been defined as “involuntary part-time” employment or employment of a person on a part-time basis when full-time work is desired.

Unemployed: Persons who, during the survey week, had no employment but were available for work and: (a) had engaged in any job-seeking activity within the past four weeks, i.e. registered at a public or private employment office, met with prospective employers, checked with friends or relatives, placed or answered advertisements, wrote letters of application, or was on a union or professional register; (b) were waiting to hear back from a job which they had been laid off; or (c) were waiting to report to a new wage/salary job within 30 days.

Unemployment Rate: Represents the number unemployed as a percent of the labor force. The seasonally adjusted unemployment rate eliminates the influence of regularly recurring seasonal fluctuations which can be ascribed to weather, crop-growing cycles, holidays, vacations, etc., and

therefore, more clearly shows the underlying basic trend of unemployment.

Units: (*see Establishment*)

Workforce Development Area (WDA): Geographic region where a Workforce Development Board (WDB) oversees the administration of WIOA activities to better align workforce development in accordance with labor market needs.

Note: Replaced Workforce Investment Area (WIA) as was used during the Workforce Investment Act.

Workforce Development Boards (WDB): Oversees the administration of WIOA activities and conducts workforce development within its corresponding Workforce Development Area (WDA).

Note: Replaced Workforce Investment Boards (WIB) as was used during the Workforce Investment Act.

Workforce Investment Act (WIA) of 1998: Replaced by WIOA as of July 1, 2015

Workforce Innovation and Opportunity Act (WIOA) : (H.R.803) Effective July 1, 2015, WIOA supersedes the Workforce Investment Act of 1998 and amends the Adult Education and Family Literacy Act, the Wagner-Peyser Act, and the Rehabilitation Act of 1973. In addition to the core programs, WIOA authorizes the Job Corps, YouthBuild, Indian and Native Americans, and Migrant and Seasonal Farmworker programs. Additional goals of the program include increasing accountability and availability of information for job seekers and the public.

Worksite: A worksite is an economic unit, generally at a single physical location, where business is conducted or where services or industrial operations are performed (e.g. factory, mill, store, hotel, restaurant).
