Fifteen sectors had job posting increases over the week and six had decreases. The 15 increasing industries grew by a combined 3,095 new ads over the week. More than half of that increase occurred in Health Care and Social Assistance (+1,765 new ads). Over the week, about 40 percent of that Health Care and Soc. Assistance increase can be attributed to a single new website posting ads, which may have distorted the deduplication filtering process conducted by Burning Glass.
